Subject: RE: Latest PRP Draft - Comment Box

Good morning Chris and Carla,

Continuing the momentum of the PRP, the comment box on pg. 85 required EPA to confirm the added text highlighted below. The inclusion of the St. Mary's River is correct and the comment box can now be deleted.

Between 2013 and 2016, GLRI funding helped supplement the Environmental Protection Agency's implementation of its Great Lakes National Coastal Condition Assessment. The assessment is undertaken every five years to determine the condition of the nation's coastal waters as well as to evaluate the importance of key stressors such as nutrients and pathogens. The Great Lakes assessment included monitoring 100 sites per Great Lake, including the connecting channels (Huron-Erie Corridor and St. Marys River).

Best,

Lynzi

Subject: RE: Latest PRP Draft

Hi Chris:

Happy 4th of July! And thank you for getting this revised draft over to us so quickly.

We've reviewed and have accepted all of your additional edits Chris. Today's 11 p.m. version is attached. As you point out, there are a few comment boxes remaining, and we still need to land on a revised Annex 6 (AIS). Given annex co-lead schedules I understand that we may still be a week away from a revised AIS annex.

Given our need to keep going, it makes sense to me to share this revised version with Mike (and to circle back to him with a revised AIS chapter when that's ready).

Cheers,

Carla

Subject: Latest PRP Draft

Hi Carla:

I attach:

1. An updated PRP. As you will see, I accepted 99% of ECCC's changes, and there are only 5-10 comments that remain (except in the Annex 6 Chapter, but see below). As I indicated on our call yesterday, I have not yet incorporated comments received from Cam thus far into this draft.
2. A separate revised Annex 6 Chapter that I believe represents Jamie and Ash's latest collaboration. I did not touch the Annex 6 Chapter that is embedded into the PRP, and I have not looked at the revised Annex 6 Chapter because I am not sure Jamie and Ash are finished with it.

Hope you had a good Holiday.

Chris Korleski
